

## ***About this flipbook***

The International Partnerships team have produced this flipbook to help you create Avis reservations for our partnership customers. Inside you will find enclosed a list of our partners including all AWD and FTP details.

We will send out new pages or request removal of pages when we win or lose Partnerships so you can keep your flipbook updated.

Good luck making partnership reservations! If you have any questions or suggestions about this book, please contact your Team Leader.

## ***FTP Lite Partners***

'FTP Lite' is a recent IT development that has allowed Avis to be included in a number of Partner' FTP programs that were previously not possible.

Rather than beginning with a 2 letter prefix for example British Airway – BA or Miles and More – LH, 'FTP Lite' partners will ALL have the prefix 'YY' followed by a forward slash, followed by the appropriate 2-digit airline code and ending with the customer's FTP number. For example, an Air China customer would be YY/CA01968092.

Please make sure you take this in to account when booking 'FTP LITE' partner bookings.
