Suur Munamägi (318 m)	550	227	275

Latvia

The Old Riga and circle of Riga boulevards (Picture 1 – 4)

Jurmala Beach (Picture 5 – 6)

- Jurmala is located at 23 km distance from Riga. It is the most popular Latvian resort city well-known for its unique wooden architecture characterised by gorgeous woodcarving decorations. Both features of Classicism and Historism and Art Nouveau and National Romanticism and Functionalism as well get on here quite naturally.
- Along the city quartz sand beach stretches for 32 km. The Blue flag flies over the beach. Vacationers from all over the world, especially from the former Soviet Union republics, have favoured the adorable resort city and its highly qualitative and interesting range of recreation events. As one of the most well-known events should be mentioned the annual competition for young singer "Новая Волна" ("Jaunais vilnis"/ "New Wave") at the Dzintari concert hall.
- Taste delicious and healthy food, walk along the central promenade of Jomas street, explore the eco-trails in Kemerī National park and Ragakapa Nature Park, enjoy the water attractions in aqua parks.

Rundale Palace (Picture 7 – 8)

- Rundale Palace is located at 23 km distance from Bauska. It was built in 1736 according to design of the famous Italian architect Francesco Bartolomeo Rastrelli. The palace is one of the most outstanding monuments of Baroque and Rococo art in Latvia.
- Rundale Palace lies in beautiful and picturesque area and nowadays is opened as a museum. Various exhibitions and expositions of applied arts and fine arts are placed in former household rooms.

Ventas rumba (Picture 9)

- Ventas rumba is located in one of the most beautiful towns of Kurzeme – Kuldīga (Picture 10). The historical building of its old town and nature constitutes inimitable, unified ensemble, similar one can be found neither in Latvia nor elsewhere in Europe.
- Ventas rumba is the widest waterfall in Europe – 240 metres, which during spring flood period reaches up to 270 metres. Its average height is approximately two meters and in spring seasons it is exciting to watch migrating fish surmounting this natural barrier.
- At a distance of couple hundred meters is the historical Kuldīga brick bridge (Picture 11) – a monument of state architecture significance, which reminds of the Trier Bridge over the Mosel built by the Romans.

Sigulda Nature Trails

- Sigulda is located at 50 kilometres from Riga. Due to its scenic environment it is often called “Switzerland of Vidzeme”. Every year approximately 1.5 million tourists visit Sigulda. The town is located within territory of the Gauja National Park (Picture 13) and there are many objects worth visiting – Gūtmaņala (Gutmana Cave), Velnala (Devil's Cave), Kraukļu aiza (Raven's Ravine), Turaida Castle (Picture 14), the Old Medieval Sigulda Castle and the New Castle (Picture 12), bobsleigh track, Ferris wheel and many others. Lovers of extraordinary leisure activities should definitely visit “Tarzan” tracks, *Aerodium* vertical wind tunnel, or bungee jumping from cable car. We recommend drivers to rent mountain bike and take a tour all over the paths around the town. Particularly adorable Sigulda is in fall seasons, when leaves colours in plenty of colours.

Lithuania

The Curonian Spit (Picture 15 – 19)

- The Curonian Spit is located in the western part of Lithuania. It is 98 kilometres long sand dune spit naturally formed approximately 5000 years ago. Here you can find the largest drifting dunes in Europe. Since 2000 the Curonian Spit is included in the UNESCO World Heritage list.
- An object worth seeing is exposition of wooden sculptures on Witches' Hill, where more than 70 wooden sculptures can be viewed depicting witches, devils and other fairytale characters.
- Within the tour to the Curonian Spit you should definitely visit the dolphinarium, which is located in the northern side of the Spit, near Klaipėda.
- The Curonian Spit is a unique complex of objects formed by both nature and humans, from enchanting small-towns to various sightseeing objects and sand dune of 60 metres height in Nida. To evaluate it must be seen.

Palanga resort

- Romantic walks along the pier, botanical gardens, and amber museum (Picture 20) with unique collection of 40 million years old ambers.

Trakai Castle

- Trakai is a city in Lithuania, at 28 kilometres distance from Vilnius. In the Middle Ages Trakai was the capital for Lithuanians. It is surrounded by three lakes and there are several castles in the town. The greatest and strongest is the Trakai Island Castle, built approximately in 14th century, historically it was the main residence of the Lithuanian ruler and has preserved till nowadays. The second – Trakai Peninsula Castle has been destroyed and reconstructed a number of times, and till nowadays only the ruins have remained of the former castle.
- Trakai offers many different leisure and recreation possibilities. Exciting sightseeing tours, recreation near the water, boating, yachting, or motor-boating, swimming, fishing, camping or enjoying restful moments at lakeshore cafe.

The Hill of Crosses

- The Hill of Crosses is situated in Lithuania, 12 kilometres from Siauliai. This is a unique place that addresses emotionally both faithful and non-believers visiting this place. Over 100 thousand crosses of different size is placed together, their number is continuously increasing. There can be found both modest crosses and real masterpieces as well. In 1993 the Pope John Paul II visited this place.
- About 300 metres away from the Hill of Crosses stands a Franciscan monastery. The monastery is opened to visitors and tours are guided by its monks.

Estonia

The Old Town of Tallinn (Picture 21 – 24)

Saaremaa Island (Picture 25 – 30)

- Saaremaa is the biggest island in Estonia and the third biggest in the Baltic Sea. Many different windmills can be found on it. There are at least ten meteorite craters formed approximately 4000 years ago on the island, the most famous of them is the Kaali crater of 16 meters depth and 110 meters diameter.
- Another object worth seeing is the 21 meter high and 2,5 kilometres long Panga cliff. Historically there was a sacrificial place on the highest edge of the cliff, where ancient people offered sacrifice to the sea.
- When visiting the Saaremaa Island, you should definitely visit the Kuresaare castle and fortress built in 13th century, which is the well-preserved medieval fortress in the Baltic States. It houses the Saaremaa Museum as well.

Keila waterfall

- Just about 30 kilometres from Tallinn, in Keila Joa village lies the five and a half metres high Keila waterfall. During high water season the water falls over all 20 meters long cliff. The canyon of the river and huge cliff rocks formed during retreat of the waterfall together make very spectacular sight.
- Near the Keila waterfall is placed the Keila Manor built in neo-Gothic style, watermills, pub, and Manor Park, which one of most beautiful parks in Estonia.

We know cars and different needs of people according to mobility very well, because it is our job.
